

StreamSAVE+

1st Dialog meeting

Consortium of streamSAVE+

Online meeting

22 October 2024

Co-funded by the
European Union

Agenda

11:00 – 11:10 Official opening and short introduction to the project

PART 1: Czech programme for non-residential buildings

11:10 – 11:25 Presentation of new parameters within the supporting scheme for non-residential buildings focusing on deep renovations
Miroslav Honzík (Czech Ministry of Industry and Trade) & **Jiří Karásek** (SEVen)

11:25 – 11:30 Q&A

PART 2: Croatia's programme for public buildings renovation

11:30 – 11:45 Monitoring energy consumption in renovated public buildings in Croatia through Energy Management Information System (EMIS)
Valentina Madžarević, Croatian Real Estate Agency (APN) and **Vanja Hartman**, EIHP

11:45 – 11:50 Q&A

PART 3: Deep renovation of residential buildings in Ireland

11:50 – 12:05 Monitoring of energy savings from domestic deep retrofit: Ireland's EEOS
James Palmer (SEAI)

12:05 – 12:10 Q&A

12:10 – 12:15 Open discussion and closing

Specific objectives

To address the gap between trends in energy savings of the Member States and the goals of Article 8 of EED by assisting public authorities in the development of new policies and **harmonisation of energy savings calculations** across the MS.

Specific objectives

To streamline calculation methodologies

Develop dialogue and capacity support facility as instrument of capacity building in Member States

Support increasing visibility and further development of online platform

Engaging relevant stakeholders in Member States

Focus areas

Methodology

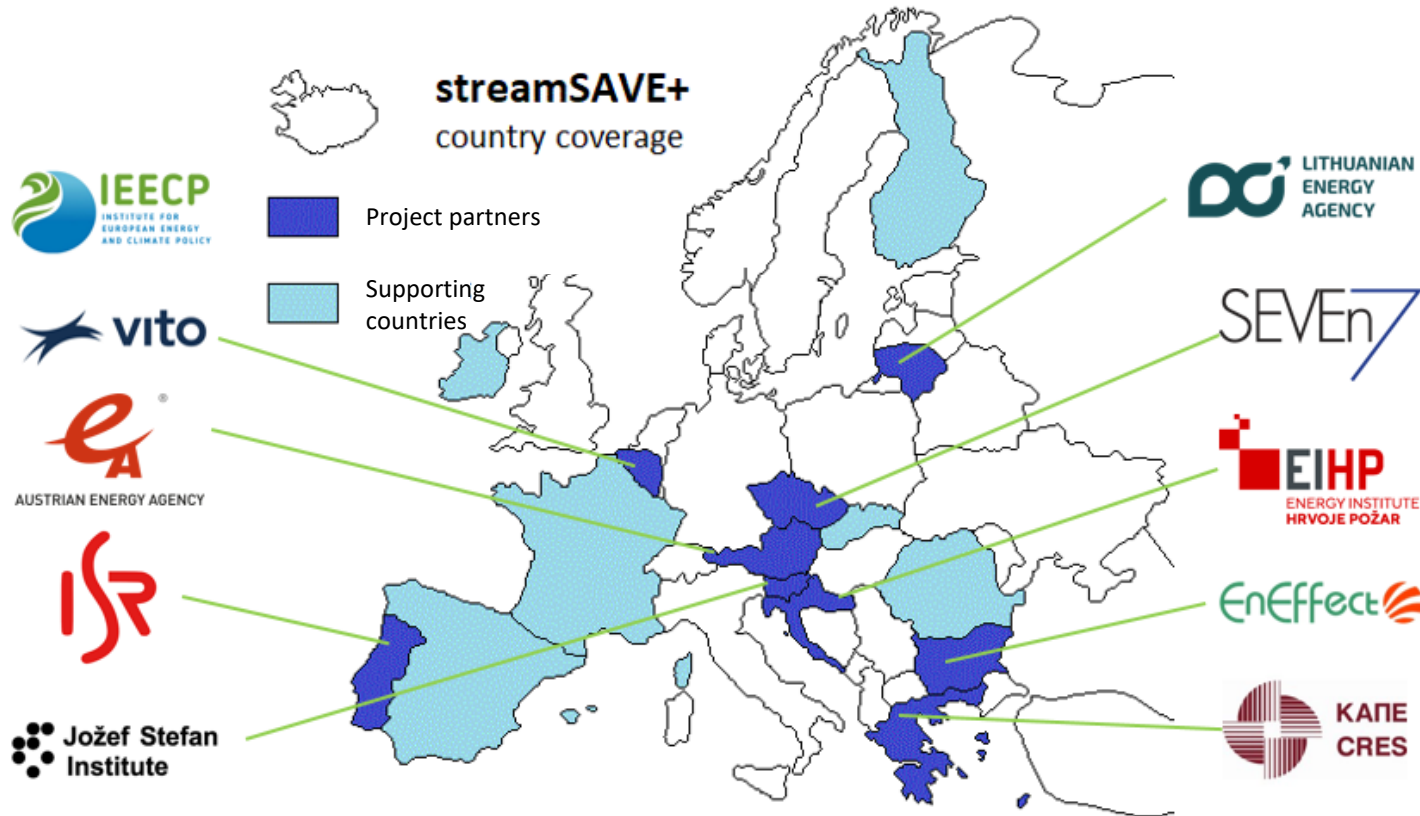

Building on streamSAVE's approach to continue growing Member States' capacities for streamlined energy savings calculations

- **Broadening the scope** of energy efficiency actions that can be monitored and reported in an effective way (**additional 5 Priority Actions**)
- Enhancing **consistency** of the reported energy savings
- Providing **specific support for the public sector**

Activities in four axes
