

streamSAVE+ Dialogue Meeting #03

Streamlining Energy Savings Calculations

‘Energy savings in companies: technology-focused vs. system approach’

Date: 6 March 2025

Duration: 11:00 – 12:15 CET

Registration link: [Link](#)

Online

MEETING AGENDA

This third dialogue meeting of streamSAVE Plus will discuss calculation methods and policy design for energy savings in companies. More specifically, we will discuss the differences, pros & cons of technology-focused and system approaches.

This will be illustrated with practical examples in terms of technology (electric motors and motor systems) and of policy (German scheme “Energy and Resource Efficiency in the Economy”).

Which approach can deliver more energy savings? And which one is easier to monitor? The answers might not be as straightforward as it seems. Join us to know more!

11:00 – 11:05	Welcome and introduction of the topic, Jean-Sébastien Broc (IEECP)
PART 1: Technical viewpoint	
11:05 – 11:20	From electric motors to motor systems: potentials and challenges to deliver and monitor larger savings João Fong (ISR – Coimbra University, Portugal, and EU-MORE project)
11:20 – 11:25	Q&A
PART 2: Policy viewpoint	
11:25 – 11:40	Evaluation of multi-measure schemes: Lessons learnt from the German scheme “Energy and Resource Efficiency in the Economy” Lisa Neusel (Fraunhofer ISI, Germany)
11:40 – 11:45	Q&A
Open discussion and closing	
11:45 – 12:15	<i>(note: a third speaker may be added to the agenda, hence the planned end time at 12:15)</i>

Discussions will be under Chatham House Rule: the minutes will not mention any name or country. All discussion points included in the minutes will be anonymized.
